Welcome

Meeting Agenda:

Co-Chair Corner

Co-Chair Corner

Data on student outcomes in co-located DLI programs

Process: When do we need to determine the elements in the final scenario so that we can work specifically on boundaries, and how many meetings will we have to do that?

Timeline: Only one more meeting in December; SEGC recommendation to board by 1/18?

Clarity on middle school assignments for fall of 2022

Supplemental materials showing impact of CSS as a K-5?

Engagement

The Open House will serve as a tool for the community to learn the goals of Phase 2, themes we've learned that have informed the 3 proposals, and to get involved with the enrollment balancing process.

To make the best, most equitable decisions, we need feedback from families and students who will be impacted by changes in boundaries and program locations, and in particular from our BIPOC (Black, Indigenous and People of Color) and non-native, non-English speaking families.

A series of engagement sessions will be held in Spanish, Mandarin, Cantonese, Vietnamese, Russian and Somali, as well as sessions for BIPOC families and BIPOC students only.
